

Claims

- 5
1. A process of treating a fabric with a composition comprising an activated zeolite.
  2. A process according to Claim 1 wherein said fabric is selected from the group consisting of: carpets, upholstery, rugs, and curtains.
  - 10 3. The process of Claim 1 wherein said composition comprising an activated zeolite is a solid composition.
  4. The process of Claim 1 wherein said composition comprising an activated zeolite comprises up to 50% by weight of the total composition of an activated zeolite.
  - 15 5. The process of Claim 1 comprising one or more of the following steps:  
applying said composition comprising an activated zeolite onto said fabric;  
leaving said composition to act on said fabric; and  
20 removing said composition from said fabric.
  6. The process of Claim 1 wherein said composition comprising an activated zeolite additionally comprises a solvent.
  - 25 7. A process according to Claim 6 wherein said solvent is selected from the group consisting of aliphatic and/or aromatic alcohol, glycol ethers and derivatives thereof, and polyols and mixtures thereof.

8. A process according to Claim 6 wherein said composition comprising an activated zeolite additionally comprises up to 90% by weight of the total composition of a solvent.

5

9. A process according to Claim 3 wherein said composition comprising an activated zeolite additionally comprises at least one of the following: a silica, a microcrystalline cellulose, and a cellulose or a derivative thereof.

10 10. The process of Claim 1 wherein said composition comprising an activated zeolite is applied onto said fabric in combination with a second composition.

11. A process according to Claim 10 wherein said second composition comprises at least one of the following:

15

a carpet treatment composition;

a composition comprising ingredients selected from the group consisting of: water; and polar solvents, such as ethanol, methanol, acetone; and mixtures thereof.

20 12. A process according to Claim 10 wherein heat is generated upon contact of said composition comprising an activated zeolite and said second composition.

25 13. A process according to Claim 12 wherein said heat generation takes place upon the fabric to be treated.

14. A kit comprising (a) a composition comprising an activated zeolite and (b) a cleaning composition or water.
